Pinhas Lavon inspired and cultivated the negative adventuristic trend in the army and preached the doctrine that not the Arab countries but the Western Powers are the enemy, and the only way to deter them from their plots is through direct actions that will *terrorize* them.

Shimon Peres shares the same ideology [as Lavon]: he wants to *frighten the West* into supporting Israel's aims.

Picture: The evidence suggests that Malaysia Airlines Flight MH17 was shot down by a fighter jet at 33,000 feet. Who could be behind such a dastardly plot? Is this a false-flag operation with a twist?

The Downing of MH17 – Is **Israel** Involved?

We know that members of the Israeli military led the violent overthrow of the elected government of Ukraine in February 2014, and we know that Malaysia Airlines Flight MH17 was shot down while flying through the air traffic control region of Dnepropetrovsk, where the governor, [Igor Kolomoisky](#), happens to be an Israeli billionaire involved in aviation companies. Furthermore, [Yaron Mofaz](#), a relative of [Shaul Mofaz](#), former chief of staff of the Israeli military, oddly took a photograph of the ill-fated Malaysian plane at the airport in Amsterdam shortly before it was shot down, which he then provided to Reuters.

Picture: [IGOR KOLOMOISKY](#) (2nd from left) the Israeli governor of Dnepropetrovsk is a prominent supporter of Ukraine's Jewish community and the president of the United Jewish Community of Ukraine. He owns several airlines as well. MH17 was in the air traffic control region of Dnepropetrovsk when it was shot down. For reasons that have not been explained MH17 was diverted from its normal route and instructed to fly across the war zone at a lower altitude of 33,000 feet by air traffic control of Dnepropetrovsk. 33,000 feet, or 10,000 meters, also happens to be the maximum service ceiling of the SU-25 aircraft*. Is this the real reason MH17 was instructed to fly 2,000 feet lower than normal over eastern Ukraine?

*** SU-25** is an attack aircraft, as opposed to a fighter jet, and designed for military ground support and similar operations. It has therefore limited elevation capacity.

Picture: Yaron Mofaz, an relative of the former Chief-of-Staff of the Israeli military, took this photo of MH17 before it left Amsterdam on its ill-fated flight over Ukraine. Mofaz works with a company that owns a similar Malaysia Airlines plane that has been kept in a hanger in Tel Aviv since November 2013. So, why did he take this photo?

Yaron Mofaz?

Yaron Mofaz also happens to be a director of a Mofaz family company that works closely with a company in Florida that owns a former Malaysia Airlines airliner, virtually identical to the missing Malaysia Airlines Flight MH370 and MH17. This Malaysian airliner, it just so happens, was sent to Israel in late 2013 where it was parked in a hangar in Tel Aviv. For these and other reasons it is logical that we consider the possibility that the shooting down of MH17 was an Israeli false-flag operation with a twist. Therefore, the real question is not *whether* Israel was involved, but *to what degree* was Israel involved in the atrocity?

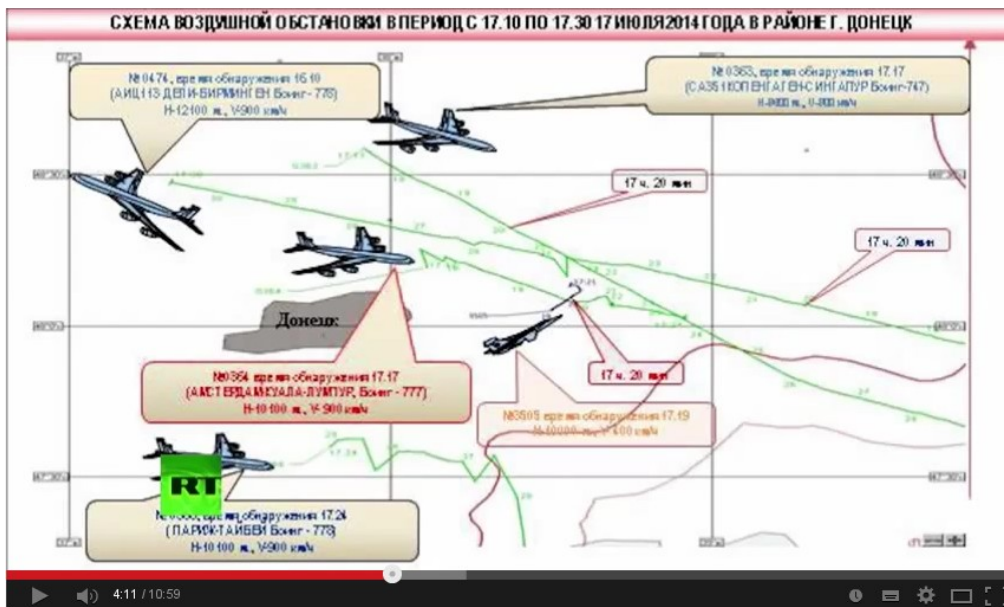

A “false-flag operation with a twist” is meant to convey the idea that the downing of MH17 may be a kind of double false-flag operation, i.e. a false-flag within a false-flag. As we know, the United States and its western allies accuse the separatist pro-Russian rebels in eastern Ukraine of downing the passenger airliner with a surface-to-air missile near Donetsk. To this date, however, no evidence has been provided to support this accusation although the United States had a spy satellite over the area where the plane was shot down when it happened. If they have evidence to support their allegation why have they not presented it?

The Russians, on the other hand, have presented evidence to support the scenario that the plane was shot down by a Ukrainian fighter jet, allegedly a Sukhoi SU-25. The SU-25 is a Soviet-era ground-support aircraft which the Israelis have modified and upgraded. The Israeli-modified SU-25 is called the “Scorpion” (the SU-25KM), and features advanced avionics with a modern “glass cockpit”.

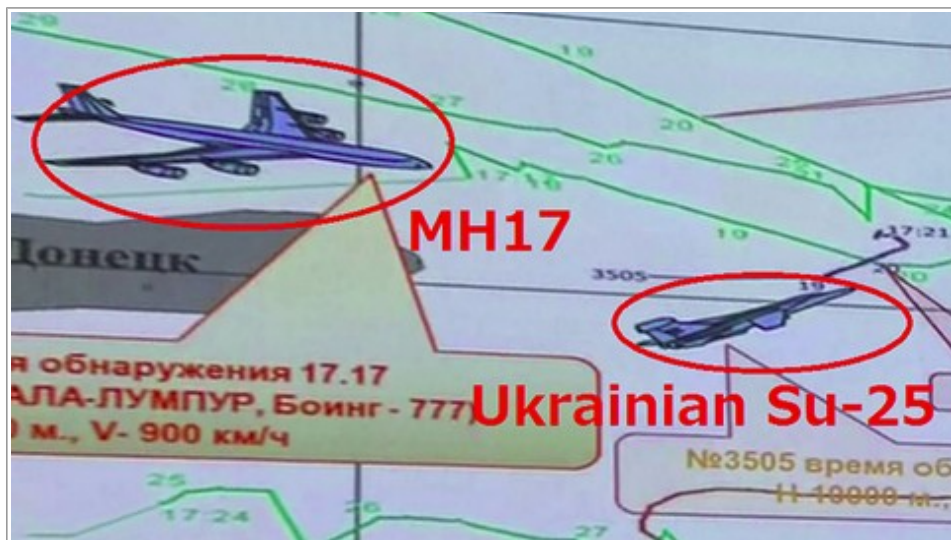

The Downing of MH17 – Is **Israel** Involved?

The “**Scorpion**” was produced in an Israeli-Georgian joint venture with the Tbilisi Aircraft Manufacturing (TAM) factory that produced the original SU-25. This joint venture project would suggest that the Israelis have a number of the modified SU-25KM planes that could be deployed in a false-flag operation.

ESSENTIAL EVIDENCE – [below YouTube video from the press conference at the Russian Air Control Center].

[Ukrainian SU-25 Fighter Detected in Close Approach to MH17](#)

Picture: The Russians have radar evidence that a Ukrainian SU-25 fighter approached the Malaysia Airlines plane before it disappeared from the radar screen. The real question is who was flying the fighter(s) that appeared to be Ukrainian planes? Did they shoot down MH17?

The Downing of MH17 – Is **Israel** Involved?

Picture: The Israeli-modified SU-25KM is produced by Elbit of Israel and TAM, the original maker of the SU-25

Picture: The Elbit logo can be seen on the side of this plane. Was a plane like this involved in the downing of MH17?

If the plane was shot down by a Ukrainian fighter jet at 33,000 feet and the anti-Kiev rebels have been wrongly blamed then it would be a simple false-flag operation. If, however, this was a false-flag operation in which the plane was shot down by a third-party, by Israelis for example, then we would have what I call a false-flag with a twist.

The Downing of MH17 – Is **Israel** Involved?

The Israelis would have several motives to shoot down MH17. Firstly, they may want to punish Malaysia for having set up the [Kuala Lumpur War Crimes Commission](#), which found the state* of Israel guilty of genocide of the Palestinian people in November 2013. Secondly, they may be seeking to punish Holland for the fact that the [largest pension fund in The Netherlands](#) decided earlier this year to withdraw all its investments from Israel's five largest banks because they have branches in the West Bank and are involved in financing the construction of illegal Jewish settlements on occupied territory.

* The author uses the word "state" about Israel, but due to it's refusal to accept it's own borders as established, Israel is no state but an entity. Below the word "state" will be exchanged for [entity](#).

There are some who might find this line of reasoning to be unfair to Israel, "the Jewish state" and "America's best friend in the region." To them, I would simply say: You do not understand the true nature of the Zionist beast. Israel operates like a gangster state that uses murder and intimidation to force nations to submit to its will. The Israelis would think that the downing of MH17 should be considered a message to the governments of Malaysia and The Netherlands and that other nations would be wise to take note of what happens to countries that challenge Israel.

[Israel – the psychopathic hydra]

If Israel were a person it would be a psychopathic serial killer on the loose. The psychopath who is a serial killer might appear to be a nice, intelligent, and civilized person – but that is only how he appears. When no one is looking he murders people in cold blood and gets away with it, time after time. The fundamental problem with his worldview is that he believes that he is superior to other people and that their lives are worth nothing. This is exactly how the Jewish supremacists who rule Israel view non-Jews. This is what is taught in Jewish yeshivas* where the anti-Christian Talmud is the doctrine and source of all knowledge. * Jewish orthodox shool.

The Zionist state of Israel engages in wars of aggression and commits genocidal war crimes and massacres in plain sight and gets away with it, time after time, decade after decade. Anyone who has studied the history of Zionism and followed the actions of the state of Israel over the decades knows this very well. The historical record is quite clear: the Zionist state was created by terrorism and deception and that is how it operates to this day. Israel's latest aggression against Gaza in which family homes, schools, hospitals, and mosques have been targeted shows that the Zionist state uses terrorism on a daily basis and has absolutely no respect for the lives of non-Jews.

The Downing of MH17 – Is **Israel** Involved?

Zionists have exploited “the Holocaust” myth to gain political power. Using “the Holocaust” as their shield, the Zionists have forced the international community to give Israel a free pass for its flagrant crimes. As a result, Israel has a permanent “Get Out of Jail” card. The failure to hold Israel accountable for its many egregious crimes, however, has facilitated the creation of a Frankenstein state that has now turned on those who fostered it. The so-called “Jewish state” has become a monster that commits atrocities in full view of the

world – with impunity. Individual states and leaders are now afraid to criticize Israel because they don’t want to endanger their positions – or their nations.

[Is Israel involved in the downing?]

In looking at the possibility of Israeli involvement in the downing of MH17 let’s start with the first question that should be asked about any such atrocity: Do any of the given explanations make sense?

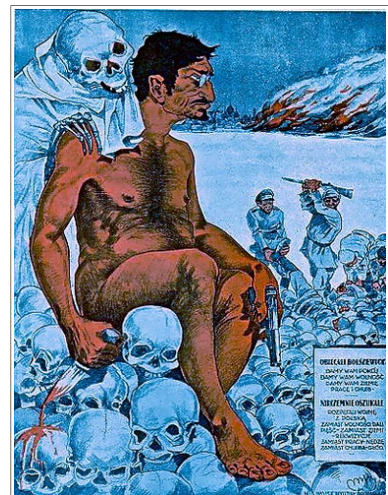

It is quite obvious that it makes no sense whatsoever for the pro-Russian rebels to intentionally shoot down a Malaysian passenger plane. Furthermore, it doesn’t make any sense for the Ukrainians to shoot down the plane either. It is hard to believe that a Ukrainian military pilot would knowingly shoot down a passenger plane and commit an act of mass murder, especially with the awareness that their actions would be seen by radar on the ground in Russia and by satellites above them.

So, who might have shot MH17 down? To answer this question we need to ask another: Who benefits from the atrocity? While it is quite clear that the United States and the western allies are trying to put the blame on the pro-Russia rebels, and by extension on Russia and Vladimir Putin, simply blaming the rebels and Russia without providing any evidence to prove their case suggests that they have no proof.

The anti-Russia faction in the United States and Europe is clearly trying to smear Russia and Putin with the blame. This faction is led by the Zionist Neo-Cons* in the Obama administration, people like Victoria Nuland (Kagan), the U.S. Assistant Secretary of State who managed the violent putsch in Kiev in February. It should be noted that Arseniy Yatsenyuk, the person Nuland chose to be prime minister of the unelected government in Ukraine, abruptly resigned on July 24, 2014, one week after the downing of MH17. Was the shooting down of the airliner a bridge too far for Yatsenyuk? It certainly would appear so.

* *The neoconservatives is Trotskyists*, ie. serves the same forces that tried to place the mass murderer Trotsky on the ‘throne’ in the Soviet Union after Lenin.

[The Jewish Kagan-family](#) stands in the center of the Zionist warmongering against Russia. From left, Donald Kagan, Victoria Nuland Kagan, Robert Kagan och Fred Kagan.

The anti-Russia faction in Washington is the Zionist War Agenda gang that dominates the Obama administration, as well as the governments of Britain, Canada, and the European member states of NATO. The supposed leaders of these nations are really just “administrators” serving their Zionist masters who put them in power. This is why these weak national “leaders” speak in unison, as if reading from the same script, in defending Israel’s genocidal aggression against Gaza – as Israel’s right to self-defense – while condemning Russia and applying sanctions for offenses it has not even committed.

This is the same group, completely controlled by Zionists, which seeks to exploit the MH17 atrocity to advance its agenda of war and conquest. Israel took advantage of the media attention on the MH17 atrocity and began its pre-planned ground offensive into Gaza on the day the plane was shot down. Was this just a coincidence or part of an evil plan? The number of very significant Israeli connections to the shooting down of MH17 suggests that Israeli intelligence is involved in the crime.

While we cannot say with certainty that Israel was involved in the downing of MH17, we can say that it had both the motive and the capability to do so. This is certainly more than we can say for the pro-Russian rebels, who have neither. What is most telling is that the rebels were wrongly blamed for shooting down MH17 from the beginning by the Zionist faction, the very people who have both the motive and capability to carry out such a false-flag atrocity.
